

BIOBUZZ: HIVEGRAMS™

The Fast-Paced Simultaneous Hexagonal Word Race • Ages 7+ • 2–6 Players • 10–15 Mins

OBJECTIVE:

Be the first player to connect all your hexagonal letter tiles into a single, continuous, interconnected **Honeycomb Word Hive** where every word reads legally along any of the 3 hexagonal axes.

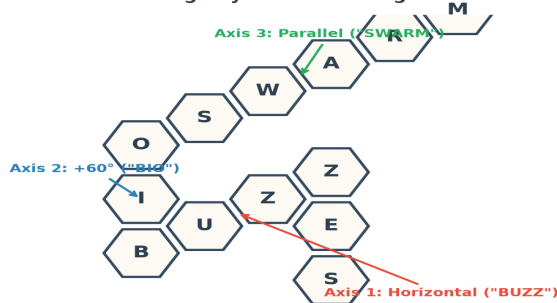

GAME COMPONENTS:

- **100 BioBuzz Hexagonal Letter Tiles** (Double-Sided with Scrabble values)
- **The Hive Pouch** (Draw bag for tile pool)

SETUP:

1. Place all 100 tiles face-down in the center of the table (**'The Bunch'**).
2. Each player draws their starting hand:
 - **2 to 4 Players:** Draw **15 tiles** each.
 - **5 to 6 Players:** Draw **11 tiles** each.
3. Players keep tiles face-down until someone shouts **'SWARM!'**

HIVEGRAMS: Free-Form Honeycomb Word Grid
(Words connect along any of the 3 Hexagonal Axis Lines)

CORE GAMEPLAY & CALLOUTS:

Play is **simultaneous and fast-paced** (no turn-taking!). Players flip their tiles and race to form valid words in their personal honeycomb grid.

- **'SWARM!' (Draw Tile):** Whenever any player successfully uses *all* their current tiles in their hive, they yell **'SWARM!'**. EVERY player (including the caller) must immediately draw 1 tile from the Bunch.
- **'MOLT!' (Dump/Trade):** If you get a difficult letter (e.g. Q, Z), yell **'MOLT!'**, put 1 unwanted tile face-down back into the Bunch, and draw **2 new tiles** as a penalty.
- **Rearrange Anytime:** You can completely dismantle and rebuild your honeycomb hive as often as you want as new letters arrive!

THE 3 HEXAGONAL WORD AXES:

Unlike square crosswords (limited to horizontal/vertical), hexagonal grids allow words to travel in **3 natural directions**:

1. **Axis 1 (Horizontal / 0°):** Left to right.
2. **Axis 2 (+60° Diagonal):** Lower-left to upper-right.
3. **Axis 3 (120° Diagonal):** Upper-left to lower-right.

CRITICAL RULE: Words must follow a **straight line** along a single axis. Words cannot bend or curve around hexagon corners! Every adjacent touching tile must form a valid dictionary word.

WINNING ('HIVE OUT!'):

When the Bunch has fewer tiles than players, the first player to use all their tiles shouts **'HIVE OUT!'**. Play halts and other players inspect their grid. If all words are valid, that player is crowned the **Hive Queen/King!**

■ **HIVEGRAMS PRO-STRATEGY:** Hexagons touch 6 neighbors! Build around central high-frequency vowels (E, A, O) to create 3-way branching hubs. If a letter blocks your hive, **MOLT** early to keep your swarm moving!
