

BUZZAGRAMS™

The Fast-Paced Simultaneous Hexagonal Word Race • Ages 7+ • 2–8 Players • 10–15 Mins

OBJECTIVE & COMPONENTS:

Race to connect all your hexagonal letter tiles into a single interconnected **Honeycomb Word Hive** where every word reads legally along the 3 hex axes.

- **Full Set: 144 BioBuzz Hex Letter Tiles** (Double-Sided with Scrabble values)
- **The Hive Draw Pouch**

STARTING HAND SETUP:

Place all **144 tiles** face-down in the center of the table ('**The Bunch**'):

- **2 to 4 Players:** Draw **21 tiles** each.
- **5 to 6 Players:** Draw **15 tiles** each.
- **7 to 8 Players:** Draw **11 tiles** each.

Keep tiles face-down until someone shouts '**SWARM!**'

SIMULTANEOUS CALLOUTS:

- **'SWARM!' (Draw):** When any player uses all their tiles in their hive, they yell '**SWARM!**'. EVERY player immediately draws 1 tile from the Bunch.
- **'MOLT!' (Dump/Trade):** Yell '**MOLT!**', put 1 difficult letter back, and draw **2** new penalty tiles.
- **Rearrange Freely:** Rebuild your hive at any time!

THE 3 HEXAGONAL WORD AXES:

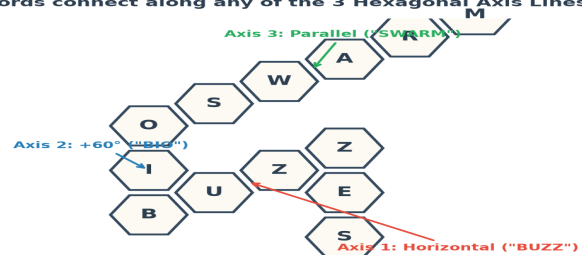

Words travel in straight unbroken lines along 3 natural directions:

1. **Axis 1 (Horizontal / 0°):** Left to right.
2. **Axis 2 (+60° Diagonal):** Lower-left to upper-right.
3. **Axis 3 (120° Diagonal):** Upper-left to lower-right.

WINNING ('HIVE OUT!'):

When the Bunch has fewer tiles than players, the first player to legally place all their tiles shouts '**HIVE OUT!**' and wins!

■ **BUZZAGRAMS PRO-STRATEGY:** The 144-tile pool provides rich vowel depth (18 E's, 13 A's, 12 I's). Build 3-way branching hubs with vowels at intersection centers, and MOLT quickly if high-consonant tiles (Q, X, Z) clog your swarm!
