

BUZZELLO™

The Tactical 6-Axis Hexagonal Bio-Swarm Reversi Game • Ages 7+ • 2 Players • 15–20 Mins

GAME OVERVIEW & COMPONENTS:

A game of territory trapping and dramatic reversals across **6 hex directions!**
Outflank your opponent's tiles to flip them to your side.

- **61-Cell Tournament Hex Board** (Radius R=5, 9 Rows: 5-6-7-8-9-8-7-6-5)
- **60 Double-Sided Reversible BioBuzz Pieces** (Light Team: Ivory / Dark Team: Charcoal)

STARTING SETUP (OPEN CENTER!):

- **The Dead-Center Cell is Left OPEN / EMPTY at start!**
- Place **6 pieces** in the immediate ring around the open center, alternating teams in a circle (3 Light / 3 Dark).
- **Light Team (P1) moves first.** P1 can play directly into the open center or flank along the outer perimeter!

CORE FLANKING MECHANICS:

1. **Legal Move:** You **MUST** place a piece that traps 1 or more enemy pieces in a straight line against another piece of your color.
2. **6 Flanking Vectors:** Trapping occurs in any hex direction.
3. **Multi-Line Flips:** All trapped lines flip simultaneously!

STARTING BOARD SETUP DIAGRAM:

BUZZELLO: Official Tournament Starting Setup
(Center Space is Left OPEN — 6 Pieces Ring the Center)

6-AXIS MULTI-DIRECTIONAL FLANKING:

BUZZELLO: 6-Axis Flanking & Multi-Line Capture
(Placing 1 tile captures enemy pieces in multiple hex directions)

THE 6 APEX CORNER ANCHORS:

- The 6 outer corner pockets (Gold Rings) can **NEVER** be outflanked or flipped once captured! They are permanent anchors.
- **The Danger Zone:** Placing tiles adjacent to open corners usually hands that corner to your opponent on the next turn!

ENDGAME & SCORING:

The game ends when all 61 cells are filled or neither player has legal moves remaining. **Player with the most pieces wins!**

- **Must Pass:** If you have no legal move, you must pass. Play continues until both players are locked.

■ **BUZZELLO PRO-STRATEGY:** The center cell is a high-impact opening move, but don't over-expand too early! Fewer pieces early on means fewer targets for your opponent. Control the internal structure and seize the 6 corner anchors for victory!
